Yes, this works with doa2 engine right now, already have canada/japan subs, and arobotics i believe its updated to the version they have been waiting for in the game, but i can get you the patch for uniforcesshades, if it works well for you and if you would want it, i have it in the stock for it too. Ofc you can ask the rest to get back to you if they all get it. But if anyones interested or here please PM me Thank you for pointing that out, I was not aware of it. Now I'll just wait on people to send me back their subs since it's not a big issue. If there was a version of the game that has those subs I will send it to you (it is patch for the engine).

Amtivland Amtivland is a fantasy-themed serial drama television series created by German author Thomas Einecke. It premiered on January 19, 2007 on ProSieben. The series follows the theme of German television soap operas, and includes elements of fantasy and science fiction, mainly mixed with Johann Wolfgang von Goethe's Faust. Amtivland is presented in "Amtiv" (anonymous) form — characters, locations and other people are initially members of one of 36 different clans. Each clan has his own leaders and a scheme of culture, and, for example, each clan may have totally different religion and beliefs. Only later in the series is revealed that the central character (a young man) is one of the Fußvolk — German statesmen/politicians from the era of the Holy Roman Empire (14th-17th century), whose spiritual quest — later deepened — allows him

is a unique Steampunk-themed roleplaying game where you can delve into the shadows of the Aeon of Sands, an area devastated by a war that took place a long time ago. The plot is deeply connected to the game's theme: in order to save his beloved wife from a fate worse than death, your character has to decipher the mysteries of the Aeon of Sands by surviving the perils that lurk within its depths. This is a dynamic and complex simulation, in which survival means

knowledge and intuition above all. The Aeon of Sands is not simply a desolate place as one can expect, but also a land rich with rare and mysterious artifacts, and in which many dangers lurk... With this game, you can delve into the steam age's mysteries of an area with a unique look and feel. Whether you are a hardcore RPG gamer or just a fan of steampunk, while sinking into the city of Agous, or pursuing the main character through an abandoned mine, the desert offers a wealth of action and fun. Features:

- Play as a good guy or a bad guy.
- Over 12 hours of gameplay.
- 5 choices and 8 decisions to make.
- Dozens of puzzles to solve and artifacts to find.
- Compatible with Android, iPhone, iPad and Mac.
- Automatic saving and resume at the touch of a button.

What's new:

Are you looking for the next big thing in card games? Do you enjoy drafting in a fast paced game that leaves you thinking "why didn't I think of that"? Are you still looking for the Trifecta, that perfect balance of Time, Construction, and Justice and balance? Well, join the club! Bloons TD Battles is an exciting multiplayer card game with 60 cards and matches that usually require a Team of 8 players. However, there is

now an all new Club Starter Pack available for purchase! This pack has everything you need to play including 10 viiiis, 10 super diamonds, 8 minis (GREEN!), 8 minis (WHITE!), 2 team rainbow cards and 5 custom targets! The club pack will be available for purchase for the price of.99. Bloons TD Battles is not produced, written, directed, or financed by Nintendo. * Nintendo and the characters and properties related to this game are trademarks of Nintendo Sudio unveiled update for it's latest SNES Classic console "SNES mini". The console can now support wireless reception, via a standard 2 meter (7.5 ft) long dongle. For those unaware "SNES mini" is an updated version of the original Snes Mini console that Nintendo released back in the 90s. The new "SNES mini" comes with 20 pre-installed games and can play 64k ROMs. The update includes support for wireless reception by utilizing a standard 2 meter (7.5 ft) long dongle. Sudio also added a sticker to the SNES mini to allow the upgrade to be confirmed visually. Looking at the dongle fully stretched out one can clearly see the Snes mini. Well this is the Smartphone of the Year because it works with Snapdragon and HTC Sense. We can finally say like Apple today that "Goodbye Android, Goodbye iOS". It really don't get me why do these companies wants to fix bad designs that you can read in every computer shops. HTC Sense is like WinLose in the market. I hate it, and my concern is should we enjoy great games like Candy Crush? or Angry Birds? Oh... I'm so happy to have my phone back! I want to go to bed with this phone, not because it has long battery or it is one of the best phone, I want to sleep with it because my phoen feels like home

Squarena is a skill based party game with an emphasis on physical action. If physical action is what you're into than Squarena is definitely the game for you. There is a certain personality

to the game which is why we can't not recommend it enough. Squareana is not a simple one-man party game, and it has a lot of replayability that will keep you playing for a long time. Squareana is a full three way skill based combat game, where your character's health determines its size. It's only when you are extremely low on health, that you start to feel the impact of bullets upon your person. It will be your health and your skill that dictates your success in this highly competitive sport. Each of the weapons and abilities that you can use has a certain speed and velocity at which it can be pulled off. Like all skill based games, you will need to improve your accuracy and reflexes to win. There are a variety of characters in the game that can be selected from or unlocked from the beginning. Each character has their own strengths and weaknesses, which can be further enhanced by unlocking various characters that will provide bonuses to the ones you already have. Can you withstand the damage and stay alive

long enough to unlock new characters? Each map has different rules, but most will follow the same general theme. The biggest difference between the maps is the gravity, which is one of the game's key elements. I have found that the higher the gravity, the more brutal and easier it is to pull off combos and moves. The gravity depends on the map, which makes a lot of the different maps fun to play against other maps you have unlocked. There is an overall sport based mode, as well as a series of preset arenas for you to choose from, as well as custom arenas that will be created with each new update. These arenas include everything from the kitchen to the scariest setting that they can put your character in. Play in the outer space of the Remoraja or the outer limits of the Subterra. There is a lot to do and to unlock, and it is up to the gamer to decide where they'd like to be! Squarena has a simple and intuitive color based control scheme that

makes it easy to understand and follow. We know that it is not for everyone, but the different options include a macro-keypad and gamepads as well. Squareana supports Xbox 360 controller, and Steam Controller as well as Android, iOS, and SteamOS.
