AutoCAD Electrical is the 2010 iteration of AutoCAD Electrical (or ACENDA, Autodesk Energy+Design Automation) and AutoCAD Mechanical is the 2010 iteration of AutoCAD Mechanical. AutoCAD Project Manager is a tool for creating, maintaining and managing product families of AutoCAD drawings. Each of the release of Autodesk Civil 3D have a subsequent update of AutoCAD Mechanical in 2012 and AutoCAD Civil 3D in 2013. AutoCAD Mechanical 2012 is a redesign of AutoCAD Mechanical 2010 and AutoCAD Civil 3D 2012 is a redesign of AutoCAD Civil 3D 2011. AutoCAD Project Manager is renamed as Autodesk Project and all these new software are integrated with Autodesk Project 360, which is the enterprise level extension of AutoCAD Project 360. Recognition AutoCAD has won a number of awards from Software Magazine since 1992 including, in 1993, the magazine's Editor's

The school district in Fairfax County Virginia is rolling back standards, from ensuring student's can master basic skills, to protecting the environment. All in the name of increasing academic achievement. And now there's worry among teachers and parents about what it will mean.
00:00:21 >> I think the school district needs to take a look at themselves. They have to really take a look at why this is happening. I think that they need to be looking at their budgets and looking at why they are having to change and try to figure out a way for them to raise their standards.
00:00:40 >> A report by the Washington Post reveals that school district leaders have been using test scores to justify changes to curriculum. One elementary school, taking away critical reading and writing assignments for fifth graders because they scored low on standardized test scores. The national teacher's union is accusing the school district of, quote, extreme ideological zeal.
00:01:05 The effort is believed to be in part to meet new federal education requirements. In Fairfax County, student achievement has increased significantly in recent years. High school graduation rates have doubled. But as with many districts, the rising cost of educating children has led to budget cuts.
