COMMENT RULES: follow these or your comment will be ignored.

1. Read FAQ page, it solves 99% of the problems.
2. Read the gray box above download links for details on this particular release.
3. If you already downloaded, make sure you read included release note.txt file which often contains more details and instructions.
4. **Comment language:** English or Italian only
5. **REQUEST a new portable/plugin?** NOT HERE. ONLY in Requests page is accepted.

Common issues (better explained in FAQ):

- **Execution problem?** Like missing .dll or other errors? Read FAQ.
- **Extraction problem?** Use winrar 5.80+ to extract, not 7z.
- **Password?** NO password needed, use winrar v5.80.

Oracle_VM_VirtualBox_Extension_Pack-5.0.16-105871.vbox-extpack is an additional setup and not to be put in portable directory.

You have 2 ways of installation:

If you have a good internet connection: run installer, enter version number, check extension and wait until installer download setup.

You prefer use a download manager or have yet setup: run installer in same folder as setup, it will not download but extract files from downloaded setup.
