What is Messenger and why you should use it

Messenger is a messaging app that allows you to send text, voice, video messages, and make voice and video calls to anyone who has a Meta account. You can also create group chats with up to 250 people, or group video calls with up to 50 people. You can also connect with your Instagram friends right from Messenger, by searching for them by name or username.

Messenger is more than just a messaging app. It also lets you watch videos, TV shows, and movies with your friends over Messenger Video Chat and Rooms. You can also send money securely and easily with friends and family right in the app. You can also chat with businesses, make reservations, get customer support, find deals, and more.

Messenger is free to use*, and works across different platforms. You can use it on your desktop, laptop, tablet, smartphone, or even on Portal, the smart video calling device from Meta. You can also access Messenger from the web browser, by visiting [\[messenger.com\]](https://messenger.com)(^1^).
